

Sorry for breaking in again but we felt this news was too important to wait for. I Witness News is once again bringing you a first hand account. This time we are standing in the midst of Rain!  
And what is your name sir?

My name is Noah

Mr. Noah can you tell us about this rain thing and why you thought it was important enough to build a GIANT box to escape from it?

Well, I was sitting on my porch one day and God told me to build this boat because He was going to be sending a LOT of rain.

Wait a minute. God told you to build this box?

Yes, and it's not a box, it's a boat. He told me exactly how he wanted it built. I know, it sounded a little strange to me at first, but I have learned in my life that when God speaks you do what He says.

Is this the same God that was involved in that creation business?

That's the One.

If I remember my interview with Him, He told us He made something out of nothing just by speaking. I think I would have listened too if that was who was talking to me. Ok, now you have this GIANT box, excuse me Boat, that you followed the plans God gave you in every detail while making and stocking with all these animals. Now, you told me that this water coming from the sky is called rain. Is that the reason you built this boat?

The "rain" is the reason God told me to build this boat. He said there would be so much of it that it would cover everything and nothing outside of this boat would live.

And again, this is the same God that created everything out of nothing?

Yes, that's the One.

Well, ladies and gentlemen, I don't know about you, but I think I'm going to be looking for a spot on this boat. We will keep you posted on further developments. Now back to your regularly scheduled life.
