

Night of Prayers

First prayer:

Jesus heart is troubled

He asked His three closest friends to pray for Him

He moves to a quiet spot for deep personal prayer

He kneels down to pray

He asks His Father for another way

He is willing but truly desires another option

He comes back to find His closest friends sleeping

Second prayer:

Jesus heart is breaking

Again He asks His closest friends to pray

He goes back to the quiet spot to meet with God

He falls on His face pleading

Father PLEASE let there be another way

He is spent. There's no other option

He finds His friends sleeping again

Third prayer:

Jesus heart is settled

Not rousing His friends He turns away

He returns alone to His quiet spot with God

He sits down to pray

He knows He has to be the way

Give me strength Father as I walk this day

Wake up boys, the time is now
